Residential Training Programme on "Mission Life: Lifestyle for Environment and Green Credit" from November 20-24, 2023 at Munnar, Kerala - Request for Nominations.

DEIT (Admin)

Dear Sir/Madam,

National Productivity Council is an autonomous organization under the Ministry of Commerce and Industry, Govt. of India. NPC plays a catalytic role in productivity promotion by undertaking consultancy, training and research assignments in frontier areas of management and technology oriented disciplines. National Productivity Council is organizing residential training program on "Mission Life: Lifestyle for Environment and Green Credit" from November 20-24, 2023 at Munnar, Kerala.

PROGRAMME THEME

Environmental degradation and climate change are global phenomena where actions in one part of the world impact ecosystems and populations across the globe.

Over the last two decades, several macro measures have been implemented globally to address environmental degradation and climate change, including policy reforms, economic incentives and regulations. Despite their enormous potential, actions required at the level of individuals, communities and institutions have received limited attention.

Changing individual and community behaviour alone can make a significant dent in the environmental and climate crises. According to the United Nations Environment Programme (UNEP), if one billion people out of the global population of eight billion adopt environment-friendly behaviours in their daily lives, global carbon emissions could drop by approximately 20 per cent.

The concept of 'Lifestyle for the Environment (LiFE)' was introduced by Hon'ble Prime Minister Shri Narendra Modi at COP 26 in Glasgow. He called upon the global community to rekindle a global pursuit of Lifestyle for Environment (LiFE). He urged to take LiFE forward as an international mass movement towards "mindful and deliberate utilisation, instead of mindless and destructive consumption". The Mission emboldens the spirit of the P3 model, i.e., Pro Planet People, as it is premised on the basic principles of 'Lifestyle of the planet, for the planet and by the planet.

Changing our lifestyle, however, is not easy. Our habits are deeply ingrained in our daily lives and are continually reinforced through several elements of our environment. Translating our intention to do good for the environment is not always easy to translate into action. However, it is not impossible. By taking one action at a time and making one change daily, we can change our lifestyle and inculcate long-term environment-friendly habits. Studies suggest that practising an action for a minimum of 21 days helps make it a habit.

Green Credit Programme is proposed to be launched at national level to leverage a competitive market-based approach for Green Credits thereby incentivising voluntary environmental actions of various stakeholders. Apart from incentivizing individual/community behavior, the Green Credit Programme will encourage private sector industries and companies as well as other entities to meet their existing obligations, stemming from other legal frameworks, by taking actions which are able to converge with activities relevant for generating or buying Green Credits. Green Credits will arise from a range of sectors and entities, ranging from small-scale ones- such as, individuals, Farmer Producer Organisations, cooperatives, forestry enterprises and sustainable agriculture enterprises; to those being developed at

Handwritten signature in blue ink.

the level of Urban and Rural Local Bodies, private sectors, industries and organisations. Green Credits will be tradable outcomes and will act as incentives.

PROGRAMME OBJECTIVES

This training program aims to sensitize participants in the following ways:

- Encouraging Organisations to adopt simple yet impactful environmentally friendly practices
- Facilitating rapid responses from industries and markets to meet changing demands
- Promoting towards Net Zero sustainable consumption and production (policy).

Creating a market based mechanism for providing incentives in the form of Green Credits to individuals, Farmer Producer Organisations, cooperatives, forestry enterprises, sustainable agriculture enterprises, Urban and Rural Local Bodies, private sectors, industries and organisations for environment positive actions;

BROAD PROGRAMME COVERAGE

The following topics shall be covered during the training programme:

Lifestyle for Environment: Principles, approach and its significance

How to create positive impact of environment through water uses efficiency, waste management & reduction and energy efficiency

Sustainable food system & healthy lifestyle adoption

Green Credit programme as per notification issued by Government of India

How to earn Green Credits

Case studies & examples of LiFE to make your organisation Sustainable.

TARGET GROUP

The programme is designed for officials working across different functional areas of management including administration, finance, personnel & training/HRD, etc. from State and Central Governments Departments/Ministries, Public Sector Units, Private Sector Enterprises, Urban Local Bodies, State Pollution Control Boards/Pollution Control Committees, Co-operatives, Corporations, Banks, NBFCs, Labor Unions/Associations, Financial Institutions and/or Academic and/or Research Institutions.
